2014 - 2020 programme for Education,
Training, Youth, and Sport

***Participants From:* Turkey, Albania, Croatia, Greece and Italy (5 Participant+ 1 group Leader per country).**

Description of the project:

Marine pollution and global warming threatens all living things in the world and increasingly the impact is clear that if no measures are taken to increase. Besides, the unconscious human behavior threatens other living things in the world. The world's temperature has increased about 0.7 degrees from 1990 to today.

Increase in the world's temperature is causing a rise in sea level and ocean water also forms the natural habitat of animals like the Caretta Caretta beach remain under the water. Besides, as is supposed to respect the natural habitats of these creatures that endangered the people, consciously or unconsciously, they harm the environment and indirect harm to these creatures living space.

As a result of joint activities will take place with these countries Caretta pollution of the seas is of vital importance to the Caretta are applied regarding human behavior and global warming and can be applied methods and aimed to raise public awareness raising awareness on this issue.

Objectives of the project:

- The project will be carried out in a tent camp in natural environment for integrate better with nature
- To improve awareness about global warming and sea pollution which destroy Caretta Caretta's nature life.
- To inform youth about global warming to prevent increasing of the global warmings high level,
- To prevent environmental pollution on seaside regions,
- To improve awareness about sea pollution to prevent,
- To inform local people about environmental pollution and Caretta Carettas,
- To drive attention on topic with making video and presentation with sharing on social media like youtube, twitter, Facebook...etc.
- To improve awareness on youth about environmental pollution and saving natural life,
- This project will provide to apply high quality projects under Erasmus+
- This project will provide entrepreneurship of youth with international experiences.

With this aims, we want to make this project under the title's of Europa youth strategy, Environmental and global warming, intercultural learning, health and welfare in Finike as special Caretta Carettas.
